

## ICO Terms and Conditions for Sallar Token

### Introduction:

Astral Hodling OÜ's headquarters are located at Löötsatn 5, 11415 Tallinn, Estonia, is hereby initiating an Initial Coin Offering (ICO) for the Sallar token. This ICO comprises 88 distinct phases and constitutes a vital component of our strategy aimed at raising a total of \$5,000,000. We initiate the token sale at a price of \$0.0048 in phase 1, progressively increasing to \$0.00834 in the final phase. Our fundraising methodology employs a logarithmic increment throughout these phases, each meticulously designed to fulfill our financial objectives.

### ICO Phases:

Each phase is intricately designed to accumulate a predetermined amount of funds, starting conservatively at \$500 in phase 1 and potentially reaching over \$300,000 by phase 88. This phased approach guarantees a well-balanced and strategic allocation of tokens, fostering a stable and incremental growth within the Sallar ecosystem. The conclusion of each phase depends on the successful sale of tokens, prioritizing actual sales over mere listings.

**See phases at the end of document.**

### Referral Reward Program:

**As a Referral Code can only be the Solana wallet address of the Referrer.**

In an effort to enhance community engagement and expand our holder base, we're introducing a referral program that offers dual benefits.

### Key Points:

- The referral code is the Solana network address of a Buyer who previously participated in the ICO.
- During the initial 10-day period (20.11.2023 – 01.12.2023) of the ICO, any Solana network address can serve as the referral code.
- Starting from 01.12.2023 until the end of the ICO offering, the Referral code will only be recognized as the Solana address that was indicated as the token sending address in the transaction that concluded the payment.

- The referral code cannot be the address for sending ALL tokens. Using the same address for both the referral code and token transfer disregards the referral code.
- Both Referrers and Buyers are participants in this referral program. A Buyer using a valid referral code receives a 5% bonus on their purchases  
*(Example: A Buyer joins the ICO, purchases 10,000 ALL tokens, and uses a valid referral code, receiving 10,500 ALL tokens).*
- From the purchase transaction, a referral bonus is calculated and directed to the Referrer whose referral code (Solana wallet address) was used by the Buyer.  
*(Example: A Buyer participates in the ICO using a referral code, buying 10,000 ALL tokens worth 100 USD. In this scenario, the Referrer receives a 15 USDT bonus, sent to the Solana address used as the referral code).*

### Referrers' Ranking Program

If the ICO surpasses \$1.2 million, the top three Referrers with the highest sales volume achieved through the use of their referral codes will receive additional bonuses:

8,000 USDT – First place

4,000 USDT – Second place

2,000 USDT – Third place

Note: Bonus payouts for the top Referrers will be processed within 72 hours of reaching each milestone: \$1.2 million, \$3 million, and \$5 million.

### ICO Duration:

This ICO is time-bound, with an end date set at the conclusion of 20 April 2024 or upon reaching our hard cap (5M USD), whichever occurs first. This deadline underlines our commitment to a timely and efficient fundraising process.

### Payment Modalities:

We accept a diverse range of payment options to accommodate our global investor base:

- **Traditional Payments:** Bank transfers in USD, EUR and PLN, PayPal transactions in USD, EUR, GBP, CHF, PLN.
- **Stablecoin:** USDT, USDC, DAI (TRC-20, SPL, ERC-20, BEP-20)
- **Cryptocurrency:** SOL, BTC, ETH, MATIC, BNB, XRP, ADA, LINK, DOT, TON, LTC, ATOM, XLM and DOGE, SHIBA, BONK, PEPE

**Exchange Rate Application:**

The applicable exchange rate is the one effective on the day of the ICO form submission. Timeliness is crucial, as payments are expected to be completed within a 24-hour timeframe.

**Confirmation of Participation:**

Upon filling out the ICO form, participants receive a detailed offer for token purchase along with a comprehensive payment instruction. Following the payment, a personalized receipt is issued to confirm the transaction.

**Token Distribution:**

Purchased Sallar tokens will be distributed to the respective buyers within 30 days following the ICO's conclusion. This distribution is scheduled for a specific day, ensuring an organized and transparent allocation process.

**Ongoing Communication:**

Throughout the ICO, we are committed to keeping our investors informed about the project's roadmap, future plans, and the team's activities. This ongoing engagement is crucial for maintaining transparency and building buyer trust.

**Disclaimer:**

The full details and terms of the Sallar Token ICO, including its objectives, roadmap, and technical specifications, are comprehensively described in the Sallar White Paper, available at <https://docs.sallar.io/sallar-ultimate-guide-2023-2030/introduction/genesis>.

This document serves as a supplementary guide and should be read in conjunction with the White Paper.
